Teaching and Learning

by Miss Muriel T. Snell

My arrival in Tonga was in February, 1958. The next day was the annual Women's World Day of Prayer, with a very impressive service held in the Centenary Church, Nuku'alofa. I shared the Queen Salote College house with Miss Glennis Leach and Miss Joan Collins and took some lessons in the College, while Miss D Rowlands was on leave. Liu Tongilava helped me with my first Tongan language lessons.

In April, 1958, I moved to Ha'apai, accompanied by Mrs Evelyn Thomas and Rev. Ron Woodgate, Church President. We were warmly welcomed by ministers and their wives, by many local people, and by the staff of Pilolevu and Taufa'ahau Colleges. Mr Woodgate conducted church meetings, and Mrs Thomas and I arranged furniture and furnishings in the minister's house, and accepted generous gifts of food.

For two years I lived in that long house with verandahs front and back, and the office in the end room. Maukava, of Foa, lived with me, helping with cooking on the fuel stove and with housework.

Rev. Tevita Tu'ipulotu Taumoefolau was College Chaplain, and he and his wife, Kakala, gave considerable assistance to me and to the College staff and students. Tu'ipulotu gave me Tongan language lessons based on the New Testament. Siniva Helu was the Senior Tutor. Later, Ngalo'afe Finau from Queen Salote College was appointed to that position.

I also had oversight of Taufa'ahau College, where Sekona was Head Tutor, and later Sione Kami took his place.

One of the big events after my arrival at Pilolevu was the College Fete. I had been told that the Senior Minister at Pangai would officially open the Fete. He made his speech, during which I thought I heard reference to me. As I sat next to Kalala, I asked her what he had said. Yes! He was introducing me and calling me to speak and open the Fete. That was a lesson for to me... to fit into a Tongan community, I had to be prepared to stand and speak on any topic, if asked to do so.

After two years, Rev. John Sutton was appointed to Ha'apai, arriving with his wife, Ruth, and their little daughter whose first birthday was celebrated in Nuku'alofa. They moved into the Minister's house. The head mistress' house, nearer the College buildings, was renovated and refurnished for me, with one room used as the College office/store room.

During my second year, there was one time of difficulty. A serious epidemic of influenza swept through the Ha'apai Islands. Several tutors and many students became ill, and we closed the College for a week or so.

(Continued on page 10)

(Continued from page 9)

I always appreciated the generosity of the people in towns and villages in supplying food for College students and staff. Sometimes I enjoyed a leg of chicken or a lobster. I felt honoured, some Sundays or on special occasions, to be invited to “a Fakaafe” in people’s homes.

On a few occasions I was able to visit the nearby islands of ‘Uiha, Foa, and Ha’ano, and once to Mo’unga’one.

I was impressed by the variety of Tongan craft which tutors and students made. This was important for the College Fete. I remember some days when my kitchen was full of busy tutors and students, and mixing bowls. Many sponge cakes were made for a fete.

Kioki Ngata, Matapule Lahi 1957

Some aspects of the College programme which stood out were the weekly Christian Endeavour meetings and the Sunday morning prayer meetings, with so many participating.

Attending morning services at Pangai Church, it was good to have the Governor Hon. ‘Ahome’e, and Heuifanga, present. One special occasion I still remember, was having afternoon tea with Her Majesty, Queen Salote, in the royal house on Lifuka Island.

It was good to have girls from the scattered Ha’apai Islands come into the College and form friendships with each other. It was rewarding to promote some students to continue their education at Queen Salote College.

We praise God for the history of Pilolevu College during half a century. We ask God for His blessings for today, 1996. We look forward to the future with confidence, as the College proceeds in God’s strength and with His guiding hand.

“The name tells all”.

There is a parallel noting between the Hebrew tradition of conferring names and that of the Tongans.

A name is not a mere label. It tells a whole story. It consists of genuine desires. It spells expectations and makes out promises. It essentially contains the life and the very meaning of the subject.

The name “Taufa’ahau Pilolevu” is loaded with valuable gems. Perhaps too rich to be given to one entity to the envy of many. For it entails a history that surpasses all history in the Isles. A history of liberation of unification and development, of triumph and of a reformation. It is the making of a Nation - the Kingdom of Tonga.

Time and space do not permit depth and details. So it will not do justice to even mention the name, given the existing constraints. However, it will add grace and meaning to the celebration if one is directed to ponder on the name - Taufa’ahau, “Tu’i Ha’apai” - his courage, insights, initiatives, wisdom, faith - to mention but a few of his most coveted qualities - and above all his great love for God and for his people. Then... Pilolevu, “Ipu Lahi” - the great example of true humility, an unsung heroine of Christian loyalty. She denied much to preserve a faith that was more precious to her than any of her rightful dues.

Indeed, when one comes to know more about the story, one stands in awe and joins the rest to salute. For truly, (to borrow from the Proverbs)

“A good name is rather to be chosen than great riches...”

In my years of association with Taufa’ahau Pilolevu College, it has always been intriguing to marvel and even to boast of the remarkable history but the best that it brings is the inspiration that compels the students, the teachers and all to live up to the name.

Absent : 'Evaleti Maea.

Class Report

Lute Koloi: Head Prefect of '96. She likes pears and taros.

Melisa 'Asaeli: Can you see a donkey? An angel with no wings.

Sela Finau: Watch out, Tonga's answer to Whoopi Goldberg.

Hu'avai Paletu'a: Listen, I think I can hear "Makonga", oops its "Madonna". Sings like an angel from the Lalo Lepa.

Popua Sikaleti: Is there any space for the rest of us? No. There is only one place for ebony rock.

Telesia Vimahi: She smiles when Moana cries out, "Nonga, open the door!"

Salote Vaihola: Lote, what's wrong with your hair. Please gals, 'oku 'ikai ko e "efu" ia.

Mele T. Toutai: What sorts of things do you use to make your hair long? I...I used to dive seven times near the black rock.

'Evaleti Maea: She will be the first teacher for Fale'one High School in the year 2000. Likes bananas.

Haitelenisia Tafa: Bula, Hai. When are you sailing back to the Island of Tamavua?

Funaki Koloi: Is there any news today? No. The kerosene radio is still broken, somebody ate the taro last night.

Tupou Paletu'a : Scared to go outside in case he gets runover by a plane. Hey, get under the "puko tree."

Kolotau 'Ahokava: Tries too hard to get the gals attention but What can we say?

Siaki 'Ali : Watch out, Jonah Lomu! Likes curry.

'Isikeli Faiva: The new boy, but when he laughs, nothing can stop him, except a remote control...

Siotonu Fakahua: Head boy, Frisco is his favourite store or are there other "chance" reasons?

'Ofeina Fe'ao: Oh yeah! Smiling dude, tries to finish his lab before it's due.

Ma'ulupe Soakimi: Mr. Politics. He might help 'Akilisi to change our laws.

'Iengi Tapu: Please come down and get off. It's against the rules for a bicycle to ride on another bicycle.

Hanieli Tu'ipulotu: He "momosi" e English language when he speaks it. Don't "lotokovi" please.

Kasipa Tu'ipulotu: Favourite food, toke, and likes to give opposing ideas to that of the teachers'.

Sione Tu'itupou: Likes hospitals and loves sleeping in class.

PARENTS SHOULD CHOOSE THEIR CHILDREN'S SPOUSES

Siotoni Fakahua

Absolutely! This will not be best for the children themselves but also for the family as a whole. It is always wise to respect our parents wishes, since we owe them respect for having kept us from the time we were young to this day. Parents choices come from their experieeces and they have more experiences of life than we have, so we should do what they want.

The conduct of one person in the family affects the rest of the family. So is marriage. Our parents live with us. They want someone who will come to the family and care for the rest of the family. Sometimes the children's choices are based on physical appearances, and so on, but our parents try to find someone who will come into the family and live peacefully with them. The children often are not worried about what happens at home, and they bring someone who will not help the family. The parents choices are often wiser since they know more about life.

The parents often choose someone who is well-off. I think this is good, because that person will help financially. Someone who is very supportive in church activities, who will stay at home and not go out to dance parties. It will be a person who will love the parents and will stay with you until old age. Parents make their decisions thinking of the best for their children, hoping that they find true happiness. Lots of people have had divorces because they did not listen to their parents. They made their own choices and lived to regret it. If we listen to our parents decisions, we would lead happier married lives.

In conclusion, I strongly believe that parents should choose their children's spouses. They do not want their children to fall into danger. It is not only our own business who we marry, because

when we marry someone, that person will come into our families, so they need to be able to handle our families as well. The choices our parents make are often because they want the best for us. So we should

listen to what they say and let our parents choose our spouses for us.

'Iengi hard at work, while Sela and Sia are ... is that a peace sign? Dunno!

Despite what you're thinking, this is NOT a leisurely walk on the beach, this is a BIOLOGY FIELD TRIP

PARENTS SHOULD CHOOSE THEIR CHILDREN'S SPOUSES

From my point of view, parents should **NOT** choose their children's spouses. This choice creates a lot of problems in our lives. Choosing a spouse means choosing the person to love, and our parents choices' are based on different factors, such as religious prejudice and material possessions, and these factors does not make a happy marriage.

Choosing a spouse means choosing the person to love. However, love cannot be chose, even by our parents. Love is an internal feeling which is emotionally built up in the heart, with warmth and our personal preferences. We choose our own s p o u s e s according to the love in our own hearts. It is a feeling that only the individual knows best. Our parents may have good faith in someone, but do they what that person really feels? Does that chosen person have love? Why don't parents enrich our lives by advising us, but leave the final decision of choosing our spouses to us.

Moreover, parents sometimes are blinded by other factors and this also creates problems. Religious prejudice is a barrier that children have to face. For instance, Catholic parents wants their children to marry Catholics only. The same with Methodist parents, most of them want their children to marry into other Methodist families. If the children does not agree, they cause even more problems when they elope, embarrassing the families and their religions. But, I ask, what is wrong with mixed marriages. We,

alone, should choose our spouses because even if our partners are from different religions, we will be the ones who will live with them, not our parents. We are all one children in the eye of God, so why should our parents restrict our choosing?

Sometimes parents look at material possessions as something to rely upon. This sort of fact affect the parents choosing of our spouses. Again, this causes problems for us. The chosen partner may have a car, a well-paid job, inherit land, and so on. This may attract parents. But may I remind you that only the sun shines forever. It may even be a borrowed car. Therefore, we should rely on our own choices for finding spouses because our parents are influenced a lot by outside factors when they do the choosing.

Not only that, but as Tongan children, we obey our parents. Even though we are not happy with their decisions, we still agree. However, this causes us great pain. Marriage should be a happy affair, but not this type of arranged marriages. In the poem, "You, the Choice of my Parents" by Konai Helu Thaman, Stanza two, line three and four, it says "...I see myself dying slowly, To family and traditions..." We surrender to our families need and wants, in marrying someone they have chosen, and we feel our freedom stripped apart. We stay home with our spouses, we pretend we care. As in Stanza four of the same poem, Konai states "...I love as a mere act of duty...". It would not be fair to allow our parent to choose whom we marry because it will cause us great unhappiness.

Let us parents remember what it was like when they were younga, and let them put themselves in our shoes and see if they would want the same done to them. We are the ones who will live with our spouses, so we are the ones who should be choosing our own spouses.

Sela and Mele are very into finding those little marine organisms.

THE SUBJECTS WE STUDY AT SCHOOL DO NOT PREPARE US FOR THE FUTURE

by Fe'aofaki Lutui (Form 6)

This society we are in, depends on interactions. To keep this mysterious circuit on the move, we should learn subjects that are useful for us, wherever we may be. There are many people starving and suffering in this world. The rich gets richer and the poor gets poorer. The only solution to stop this burning fire of starvation and problems, is to light another fire, and that is with **knowledge** of how to deal with these problems in our own societies.

The use of our education is to look ahead to get jobs, to earn money to help us with our living. Sadly, most areas and skills that are needed now in Tonga, in the world today, are not taught in our schools. The world is moving into a technical world. We are not studying technical subjects in our schools. For example only a few schools have Technical Drawing classes. This is a field where if we study them, we will be able to draft, design and draw plans for different things. We will also be able to get a lot of money from a job that requires these skills. Those of us that may not pass our exams, may get a living if we know how to draw plans and do other related jobs.

Tonga is an agricultural country, yet only a few schools are doing Agricultural Science and even then, mostly only boys study that. Girls should also study Agricultural Science because it will help them when they leave school and grow their own vegetables and so on. Engineering and Carpentry are also fields that should be studied in our schools. We do not have those subjects in schools yet. But these are the things that when we leave school, that will give us jobs. These are areas where we will find income for our families. Learning about "cosine" in a Maths class is not useful at all if you do not find a job to help your families with.

Not everyone can pass the exams, but everyone can get a living if we are given opportunities. We will be able to find more opportunities for work, if we study subjects that are really useful to all of us, once we leave school. The subjects we are studying now are only useful to those that will go to universities. How about the rest of us, who don't want to go to university, but want to learn other things? I suggest that the Education System look into these neglected areas and give us subjects that are useful!

One day a salote with several occupants drew up in front of Pangai courthouse. A young man got out and came into the office.

"Is this the place where a feller comes to get a license to get married?" he asked.

"Yes, Sir," answered the clerk. "You surely have come to the right place."

"Well, make me a license so that Sati o can marry 'Ana Loa."

"Are you Sati O?"

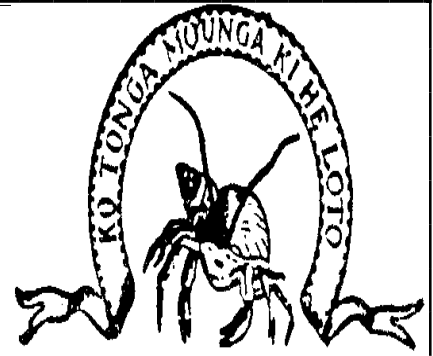

"Yes, I'm Sati O."

"And is the young lady of age?"

"Naw, she ain't."

"Then I suppose you have her father's permission to marry her?"

"Well, I gues I have. See that old man with the "va'a palalafa" out there in the salote? Well, that's her father."

FORM 6 DIARY ENTRIES

Hanieli - 3.3. 96

Came early to school. Our period has been shortened down to 35 mins, so that we have enough time for singing practise, "hakas", and also for the sports people.

When the last bell rang we were all dismissed to our homes, changed, ate then came back. I came late. "Ako faiva" had already finished, went straight to Taufa'ahau for the "ako laka". I felt sick because the sun burned down hot on my face.

After that, I hurried to change, slept, woke up, bathed, ate and waited for the family prayer. I watched videos for an hour, then did some studying.

Last day for school becoz of the Easter Break. At school everything was fine. When school activities were completed, I and Kainga cleaned up our water tank (sima vai). I hurried home afterwards and slept. My mother woke me up to help her do the cooking. I "vau", the coconut, then came to Lea'aetohi for exercises.

Tupou 6.3.96

My feelings about our school on Friday. I felt very happy because we played in our English class, but I thought the teacher tried to give the winning points to 'Iengi's team. I talked with my group to play around to make 'Iengi's group angry. In the end of the game, they won and they were happy!

Popua - 7.3.96

Yesterday was not a good day for me because it was raining and the road was very muddy. At school I was very busy trying to finish off my Essay for our first Internal Assessment. Not only that, but homework for Maths and Economics. After school, I went home. I hurried to the kitchen and hunted for something to eat. I checked the pot, there was only breadfruit there. I was so sad. I closed it and left the kitchen. I called Mum and Dad, but there was no answer, so I hurried to my room and changed, waited for a long time before I heard my mother calling.

8.3.96

This day was a lovely day for me because I had a breakfast in the morning before I went to school. At school I understood every lesson that the teacher gave me. After school I went to town with my friends. One of my best friends took me to one of the restaurants and we had a great lunch there. After that we talked for a while before I went back home. When I got home, my Dad told me that my mother was away because her uncle was in the hospital. I was so sorry for him.

Sela Finau (8.3.96)

(Continued on page 57)

(Continued from page 56)

Today was wonderful and great. The wind was blowing softly from the south. The cool air freshened our minds for a good start in the morning. Everyone seemed happy and know what she/he was doing. There were no noises (like yesterday). It was also not cloudy. We had a competition in the English class and our group won it. The winner will be given their prizes on Monday. Our group were excited that we didn't recognize that the bell had gone. Anyway we won it, and we're ready for the prize.

12.3.96

Man, Wow! I'll never forget this day and our Bio trip to the edge of Koulo. There had been a very funny thing happening during our trip. It went like this. One of the boys had some cans of lemonades in his bag. He left it on the beach and went to the edge of the water to count the organisms. While he was away, five of our girls camd and took one each and then went away. When this boy returned wit his fried, there were no mor lemonade left. They were furious. They shouted at me and my partner, accusing us of drinking their lemonades, 'cos we were the ones closest to the bag. When we returned, they never said a word to us. But who cares?

'Ofeina - 19.3.96

I didn't feel good today. We had marching practise bu the students were behaving stupidly. We had a bad Maths class because I did not understand anything. Followed by English. I had my short story but I hate it. We had Biology and we copied many notes. We had singing practise during the interval. We did not have our Chemistry. We had our English class as the last period, at Pilolevu, under the Kasia tree, beside the girls dormitory. We discussed our short story and we had a good class.

20.3.96

I felt happy today, instead of being bad tempered like yesterday. I had my Physics practical and it was an easy one. We discussed our short story and it was clear to me. My Biology was not so good because we copied more notes but happily my Chemistry problems were solved. We had Mathematics, and it was as good as ice-cream because we understood the equation problems. And we had our last English period and it felt good to speak English.

Lute Koloi - 27.3.96

I was very surprised when I woke up that it was half past eight. I ran to the bathroom and had a shower and then came back and wore my uniform. At school, after assembly, we all ran to our classroom with joyful hearts because our head tutor told us that our periods will be like our Tuesday programme. Our first period was Maths,

(Continued on page 58)

(Continued from page 57)

and what a happy time for me when our Maths teacher told us about our Maths test, that it will be postponed to the following week. But I didn't feel good at all, because I still remembered that our Physics test will be held at Period 4. So went to the next classroom, tried to memorize something inside my mind. But it was so hard and I don't know why it was so hard just this tiny bit. I tried to solve my problems when the second bell rang for the next period. I went to the library. At the library, some of my class talked with me. We laughed until the next period. I was very sad to face my Physics test. I tried my best but I forgot everything!

Mele Taufa 28.3.

Yesterday and today, I was in a bad mood. I woke up late and was almost late to school I didn't talk to my friends. I just did my own work.

29.3

Today we had lots of exams to go through. Some were easy and some were hard. Also we still have a lot of things to do for our Research Project, due this month. On Saturday and Sunday I went to the hospital and stayed there with our grandma. I didn't go to church on Sunday because I had to take care of her.

Salote - 1.4.

Today is a beginning of a new month. Oh, Diary, Happy Birthday! I came early to school. I met Hanieli and said good morning and Happy Birthday to him. The principal led us in our morning devotion. First class was Maths. We didn't have recess. After school we went and changed, then came back for "faiva" practise. I went back home about 5:15pm.

Funaki Koloi - 1.4

Today I felt sick. We went to school at about 9am. We arrived late to school. Last period, Tevita Palefau told us to search for any plants or animals that can affect people's lives. After school, we had a singing practise with 'Aho and Viliami for about an hour. After that, we went to Taufa'ahau and had a marching practise with the soldiers.

2.4

Woke up and went to school. Marching practise with 'Iengi, and with "Kopila" Katoa, who is teaching the band boys. We assembled at the front door of Form 6. It was sunny. After school I went with Telesia to her home and had our lunch there. We returned to the Mango tree and had roll-call for the afternoon work.

Telesia Vi - 11.4

Excuse me but let me tell you the truth diary. I was so flemohea today 'coz I didn't "fiu he mohe" last night. Except for our English class, because we were given some crossword puzzle and exercise to do which is one of my favourites. Everyone loved

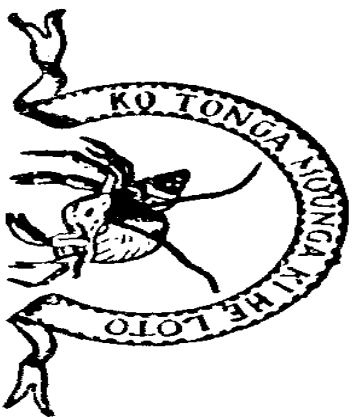

(Continued on page 59)

(Continued from page 58)

this exercise 'coz it makes everyone think and it really helps a lot with our English vocabulary. We "ako laka" today, which was good, but a bit "fakalangalea" to me 'coz I kept making the wrong move which I hated myself for having this kinda "sinosino hala". My friends teased me and I didn't mind 'coz I wanted them to be happy. At home, I practised outside our home just to find my brother laughing his stomach out! I guess I completely looked like a fool!

Tofa 12.4.96

Today we had our inter-college sports and I had an enjoyable day. This morning I woke up from sleep and took a cool bath ready to join the school's sports team. After dressing up, we marched from school to Taufa'ahau with the band leading us. The other schools joined us marching around the field to complete the first programme of the day. After marching we had an opening prayer, then we went back to stay. As the sports started I loved watching the students competing in races as well as in the field events like Shot Put. I joined some of the sports events and did my best. I enjoyed the sports as much as meeting other students (girls!) from other schools. After the sports we gathered again before the dorm. and heard the results being called. We happened to lose many grades but it didn't matter, as long as I had a happy time. After the sports I became very tired and went very early to sleep.

It's reaching for the feelings
deep inside,
within my heart,
The words which can
never be said, only felt,
Hoping finally that
we shall never, never
part.

It's a difficult battle,
I suppose this is my way
of saying "I love you",
where I don't know
But I don't know
of the friendship
we have.

There are so many
unexpressed thoughts
of the friendship
we have.

But I don't know
of the friendship
we have.

But the smiles came through
The tears I cried
I know exactly where
And with your help
My love for life
Never went astray

Without you, the sun would never stop
Without you, my life would be ...

WITHOUT YOU
by Lam Vaha'i
(Dedicated to Taufā'ahau Pilolevu on the Golden
Jubilee)
When I think of you
about to disappear,
a working siren,
I close my eyes wondering aloud ...

BEING LONELY fai 'e 'Ungatea
Luani & 'Aitilini Maka

No one sees me
No one waves
They ignore me
And hateful towards me
My mates mock me
Let me down everytime
Knock me around in class

The bell has rung
And my heart pumping

My feet are shaking
Mouth is dry
Mind jumping and
Stares from my teachers
Hoping to be at home

Time is lonely
Time is sadness
Good at times
Bad sometimes
Loneliness is near
Teardrops start falling
Wrapped in my blanket
Consoling myself.

STORM by Semisi Koloi (Form 2)

Storm is very strong
And it damages a lot of crops
It flipped the houses roofs
And dumped them in the nearby bush.

Storm is very dangerous
When it slams on the sea
It creates large waves
And devastate the houses
Near the shores.

SAFETY by Semisi Koloi (Form 2)

If you want to stay alive
Don't drink then drive
Never walk behind a bus
Or Mum and Dad will make a fuss
Never even ride a bike
Unless you have a safety light.

LAST WORD by Telesia Vi

A time of sadness
A time of happiness
A time of laughter
A time of sorrow
A time of saying hello
And a time of saying
Farewell, Thank you, and Goodbye!

School have been fun
If we used the time right
Rules have been tough
But we held on tight

Now, as my last year
Even though a pass or a fail
That would be the end
If ever you think of anything
Please remember me
By reading this last word of mine.

I lie down
I sit up
I come here
Now I go away

Now the time has come

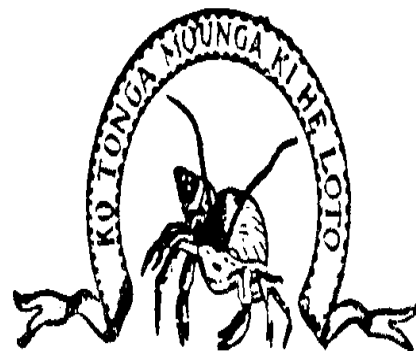

And I know that I
Have come, and I see,
And I have conquered

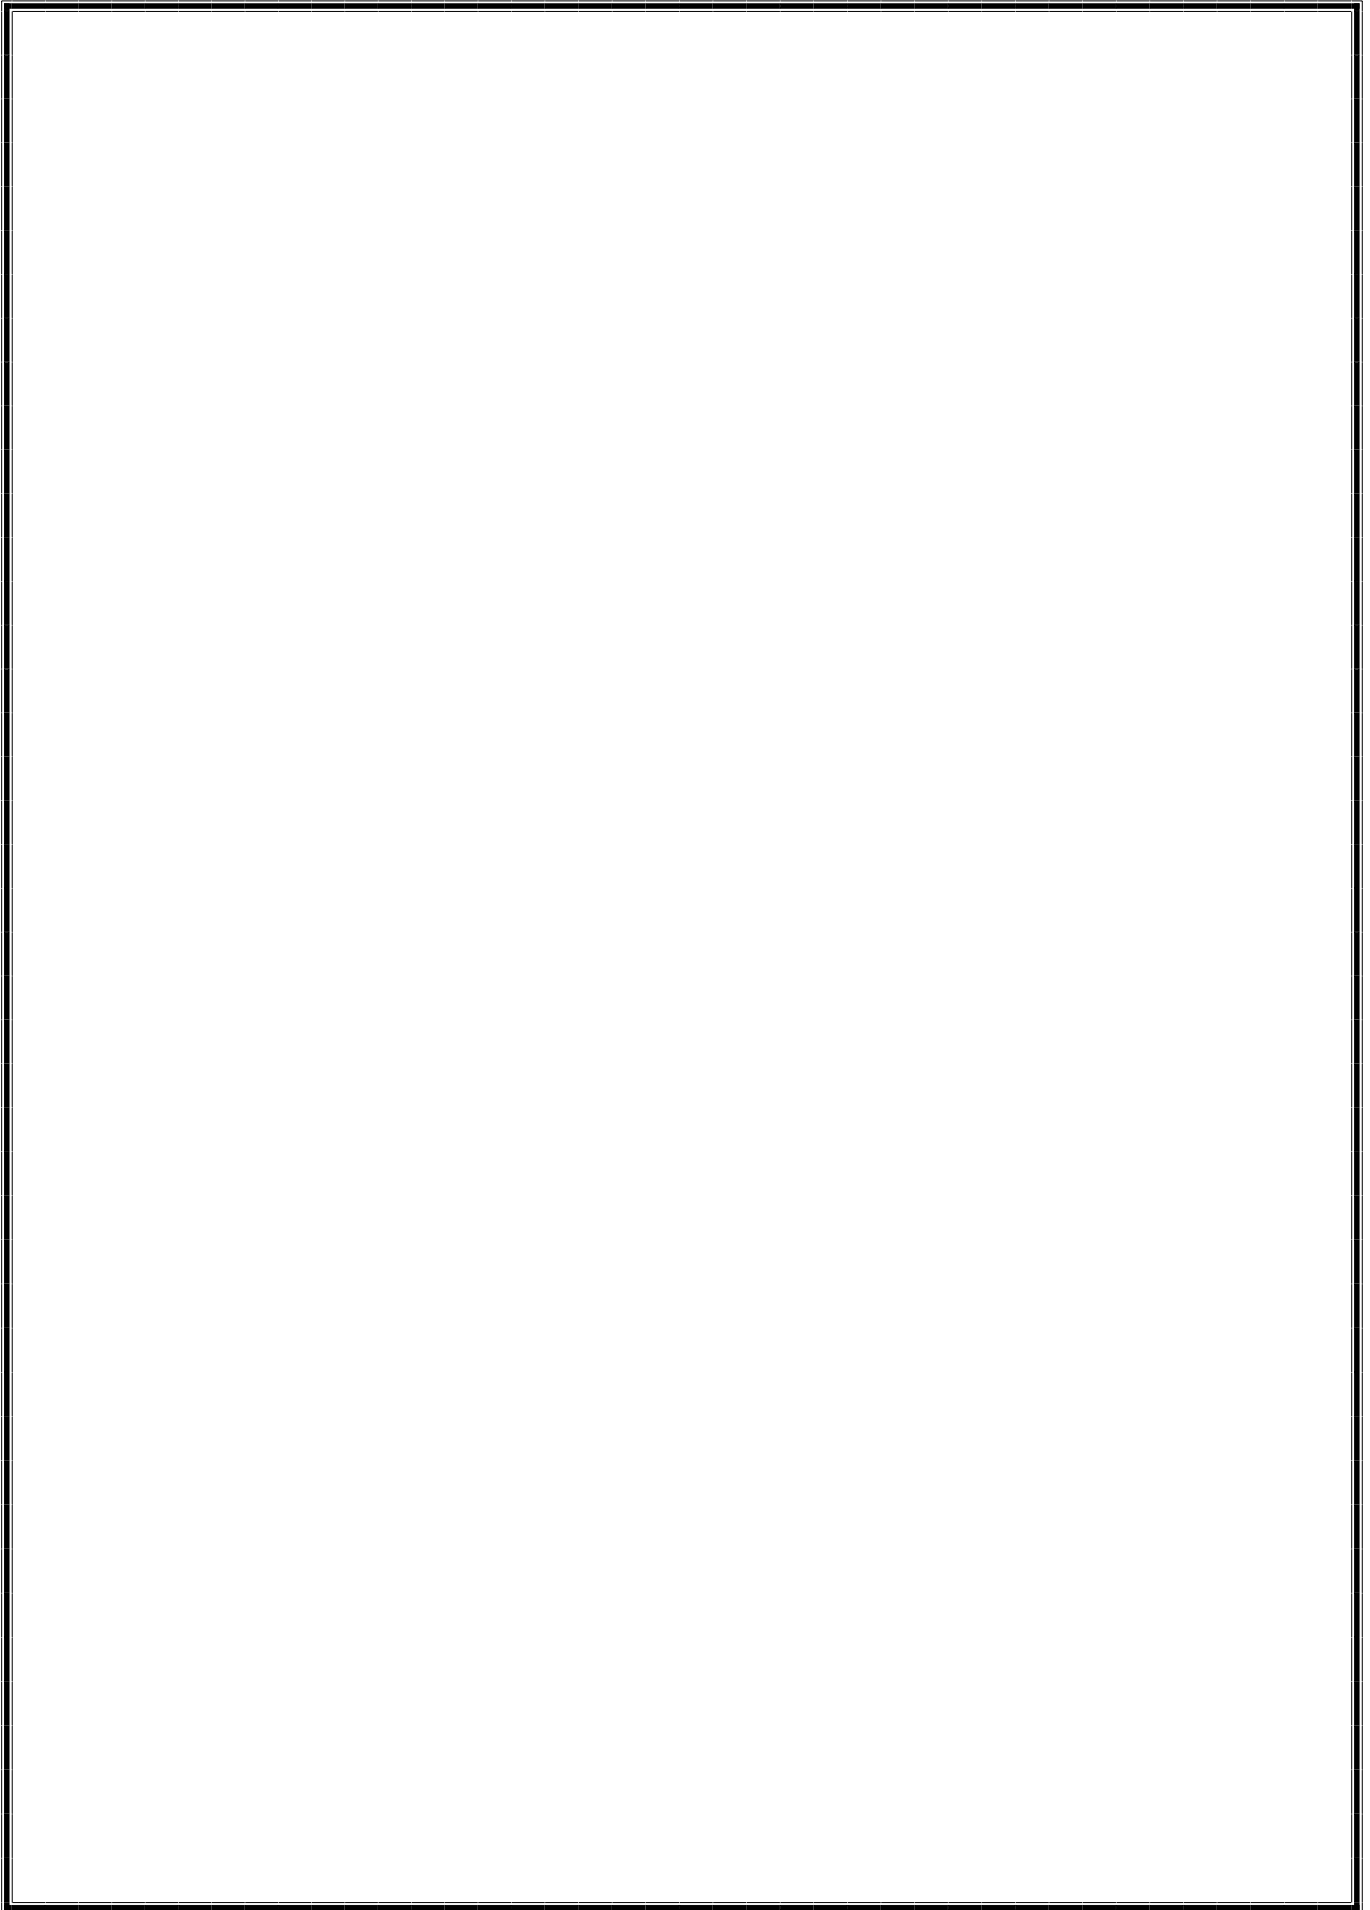

Thank you ever so much to
Principal, Deputy, Head Tutors, Staff
and all of you who have helped me get
through.

I sure will always treasure you
this school, and this historical year
of the Golden Jubilee.
Let's make this year a
YEAR OF VICTORY.

Taufa'ahau Pilolevu College
The one I love so dear
Everytime I speak your name
I must hold back my tears
Through hard times
And bad times
You have been at my side
Like a candle in the dark
You have been my guide
Pilolevu I thank you for the strength
You have given and the disciplined
Life that I'm living
Bu the time has come for us to
part. Remember, Lonitoni, you
will always be in my heart.
Tears from my eyes will be
Running forever
Taufa'ahau Pilolevu I
will forget you never.

FAREWELL TO TAUFA'AHAU/ PILOLEVU *by Funaki F. Koloi & Telesia Vi (Form 6)*

Six years go by
Now the seven is the last
of being called a child
Tears start rolling my eyes
For we are close to parting

How I love this school
And our English teacher
For being merciful
with
late diaries and
assignments
wishing we would be
together
Sharing time that
matters

I have been a consumer
for seven years,
Came to teachers,
producers of fruits
With your knowledge,
you share with us
In Englis, Agr. Science,
Eco, Maths and Accounting.

When tomorrow comes,
I'll be an ex-student.
Wondering and counting
the good things that
Taufa'ahau and Pilolevu gave me.

Goodbye, Pilolevu, I will never
forget you.

BEING LONELY WITHOUT A FRIEND

by Hina Tu'ilape (Form 5.1)

Lonely ... and alienated..

The loneliness I feel

I tried to overcome

I tried to forget

But it seemed so
hard

Someone hear
me

Please Lord help
me

The feelings I
have

It's so hard to
express

So hard to explain
Loneliness is with me
and forever it will be

Although no one notices me
It seems like they will never be
I keep pretending
I'm not belonging
But what is the use of pretending
Without anyone to comfort me?
No one to lean on, and
no one to share my sorrows.
Now I finally realize
I'm so lonesome
without you!

FIRST FORM 6 AND THE GOLDEN JUBILEE

by Melisa 'Asaeli (Form 6)

It has been a blessing
A privilege and an honour
To be a Form 6 student in 1996
At Taufa'ahau/Pilolevu
College

A special year for the
College
A special year for Ha'apai
A special year for Everyone
Our Golden Jubilee has
come

Aren't we lucky to be here
During this unforgettable

year
Although we aren't faithful servants
to hear
But we've done our best with no
fear.

1996 is a year to remember
First Form 6 has been established
It's a dream that has come true
The celebration of the Golden
Jubilee
And everyone is quite ready.

Welcome, everyone to the "Fo'i
'One'one"
Welcome, everyone to our College
Enjoy the peacefulness we have
For we really want to preserve
Our "Friendly Islands" that
Captain Cook named.

(Continued on page 70)

(Continued from page 69)

We have so much to accomplish
But never say, I didn't have time to pray
For without His help
We will surely fail
No hurry, pause and seek him first.

Congratulations students, staff and parents
Our Golden Jubilee is on
Let's get up and carry out our tasks
To the fullest of our potentials
There's no time to cry
There's no time to be shy
There is only time to smile
and word hard.

THE GOLDEN JUBILEE (1996)

'Etuina Taufatofua - Preform

A great privelege for me
Having this golden opportunity
To come here
And join in celebrating
The Golden Jubilee

Being a student at Taufa'ahau/Pilolevu College
Is quite a blessing for me
Joining in every different activity
I have so much to accomplish
That I don't have time to play

Oh, my sweet Taufa'ahau/Pilolevu College,
You are the sun of my soul
Please come closer
Hold me tight and keep me warm
Show me your smile
Oh my dearest school

Everybody get up and be ready
The Golden Jubilee is on this year
Let's do this and that
And never tell me so
That there's not enough time.
